

The Power of Giving: Creating Opportunities, Changing Lives

The Impact of Donations

SCE is more than a college - we are a hub of innovation, a bridge to opportunity, and a cornerstone of progress in Israel's southern region. By empowering students from diverse backgrounds to excel, innovate, and lead, we transform potential into achievement and shape the future of engineering and design.

Thanks to the generosity of our donors, SCE is home to cutting-edge laboratories that drive research, collaborative spaces that spark creativity, and scholarships that make higher education accessible to all. These contributions do more than upgrade facilities - they change lives. They open doors for first-generation college students, equip them with the tools to succeed, and empower them to give back to their communities and beyond.

Every gift to SCE strengthens the southern region, fosters industry partnerships, and supports real-world solutions to today's challenges. Our graduates don't just enter the workforce - they become leaders, innovators, and changemakers, shaping the future at local, national, and global levels.

Together, we are building a legacy of progress, innovation, and opportunity - one that transforms lives, strengthens communities, and inspires change for generations to come.

Personalized Giving & Donor Recognition

We understand that every donor has unique interests and motivations. That's why we offer tailored giving opportunities that align with your passions and priorities. Whether you wish to advance a specific academic field, support groundbreaking research, or enhance student life, we can create a customized giving plan that reflects your vision.

Our development team works closely with donors to define the impact they want to achieve, ensuring that every contribution makes a meaningful difference.

As a testament to our gratitude, every donor is acknowledged, with names proudly displayed on our Donor Recognition Wall, categorized by giving level.

For those making significant contributions, we offer exclusive naming opportunities, providing a lasting legacy on our campus. This may include a plaque at the entrance of a facility or another prominent feature, serving as a visible tribute to your generosity.

Additionally, major donors receive recognition in institutional publications, media features, and digital platforms, further showcasing their commitment to advancing education and innovation.

In the following pages, explore the many ways you can make a lasting impact at SCE through diverse giving opportunities that empower students, drive innovation, and shape the future.

Shaping the Future of Tech Education: The New Hi-Tech Building

(Be'er-Sheva)

To meet the growing demand for engineering talent in the South, SCE is launching the New Hi-Tech Building - a state-of-the-art hub for innovation, learning, and industry collaboration.

The new Hi-Tech Building will be a transformative addition to the Be'er Sheva campus, designed to meet the evolving needs of students and faculty in the Software Engineering and Computer Science Departments while fostering innovation and collaboration.

This state-of-the-art facility will feature modern classrooms, lecture halls, departmental offices, innovation hubs, advanced laboratories, study zones, and an underground parking lot, ensuring both functionality and convenience.

A New Standard in Student Living: The Residence Complex

(Be'er-Sheva)

The planned state-of-the-art residence complex will provide safe, affordable, and accessible housing for 270 students, fostering a dynamic campus culture. Currently, SCE does not offer on-campus housing, making this project a transformative step in enhancing student life. More than just a place to live, this modern residential environment will feature shared spaces that promote collaboration, innovation, and personal growth, ensuring students thrive both academically and socially.

Beyond addressing an urgent housing need, this project will revitalize the surrounding neighborhood, strengthening its connection to the college. By fostering interactions between students and local residents, the complex will contribute to a vibrant, dynamic urban environment, further embedding SCE within the fabric of the city.

how you can contribute to its development.*

Designing the Future: The New Architecture and Design School

(Be'er-Sheva)

SCE is the only academic institution in southern Israel offering a School of Architecture, reinforcing our commitment to education and innovation. To meet the growing demand for skilled architects and designers, we are creating a state-of-the-art campus - a dynamic environment that nurtures talent, sparks innovation, and shapes the region's future.

Seamlessly blending restored Ottoman and British Mandate era buildings with cutting-edge facilities, the campus will feature:

- Four Landmark Buildings – Restored historical structures housing workshops, galleries, and cultural spaces open to the public.
- Main Academic Buildings – Modern lecture halls, labs, and study areas designed for creativity and collaboration.
- Plaza and Social Spaces – A central hub for events, exhibitions, and community engagement.

This unique fusion of history, creativity, and innovation will establish the Architecture and Design Campus as a regional center for excellence and cultural exchange.

proposal and explore how you can
contribute to its development.*

A Campus for Generations: New Ashdod Campus

Founded in 1995 in Be'er Sheva, SCE expanded to Ashdod in 2002, initially operating from temporary facilities. At the request of the Council for Higher Education, and in response to Ashdod's growing population and commitment to quality education, SCE recently laid the cornerstone for a permanent campus - a major milestone in the college's development.

Spanning 37 acres, with an initial 11-acre development, the new campus will be a state-of-the-art academic hub, featuring academic buildings, laboratories, lecture halls, sports facilities, and public spaces, all designed with environmental sustainability in mind. The campus will offer specialized programs aligned with regional demands and foster strong partnerships with local industries, enhancing both practical experience and research opportunities.

*Interested in this upcoming project?
Contact us to receive a detailed
project proposal and explore how
you can contribute to its
development.*

This transformative project will expand access to higher education, drive innovation, and support Ashdod's revitalization, preparing future leaders to advance development in Israel's southern region. Once completed, all students and academic programs currently in temporary facilities will relocate to this cutting-edge campus, ushering in a new era for education in Ashdod.

Opening Doors to Education: Scholarships for a Brighter Future

At SCE, we believe that higher education should be within reach for everyone. SCE proudly welcomes a diverse student body, including many from underrepresented and economically disadvantaged communities. For these students - often the first in their families to attend college - SCE serves as a vital gateway to higher education and meaningful careers close to home.

Nearly 60% of our students receive financial aid, and we remain committed to breaking down financial barriers, ensuring that education is not just a dream but a reality. Our dedicated financial aid team provides tailored support through scholarships, external funding sources, and flexible tuition plans. This assistance extends beyond tuition, covering essential living expenses so students can focus on their studies without financial strain.

With your generosity, we can empower even more students, ensuring that no aspiring engineer or designer is left behind due to financial hardship.

Choose to support one of our existing scholarship funds or work with our development team to establish a new scholarship with the flexibility to define recipient criteria. We are happy to assist in creating a fund that reflects your vision and impact.

Scholarship Fund Options :

Full-Tuition Scholarships

Fund a student's entire tuition, with the option to set criteria like academic excellence, financial need, or leadership potential.

Community Engagement Scholarships

Support students who are actively committed to community service and social impact, fostering a spirit of social responsibility and civic engagement.

Graduate Support Scholarships

Provide financial assistance to master's students, equipping future researchers and leaders with the resources they need to excel in their studies and careers.

Performance-Based Scholarships

Recognize and reward outstanding academic achievements, motivating students to pursue excellence throughout their education.

Support for Underrepresented Groups

Help make higher education accessible to underrepresented communities, such as the Haredim, by addressing unique barriers and creating tailored opportunities for their success.

Guiding Every Step: Academic and Personal Support

At SCE, we believe that success in engineering and design goes beyond mastering technical skills. That's why we offer comprehensive academic and personal support programs, ensuring students have the resources they need to thrive in their studies and future careers.

*Student Support Center**:

The Student Support Center is a hub for academic assistance and personal growth, offering tutoring, counseling, life skills workshops, and psychological services. Through its Technological Learning Center, it provides specialized resources for students with learning and physical disabilities, ensuring accessibility for all.

Donations expand counseling services, mental health support, and skill-building workshops, giving students the tools to overcome challenges and thrive both academically and personally.

*Career Development Center**:

The Career Development Center prepares students for meaningful careers by providing targeted training, internship opportunities, and industry partnerships, ensuring they enter the job market with confidence.

Donations strengthen industry connections, expand internships, and enhance career coaching programs, equipping students with the skills and opportunities to secure fulfilling careers.

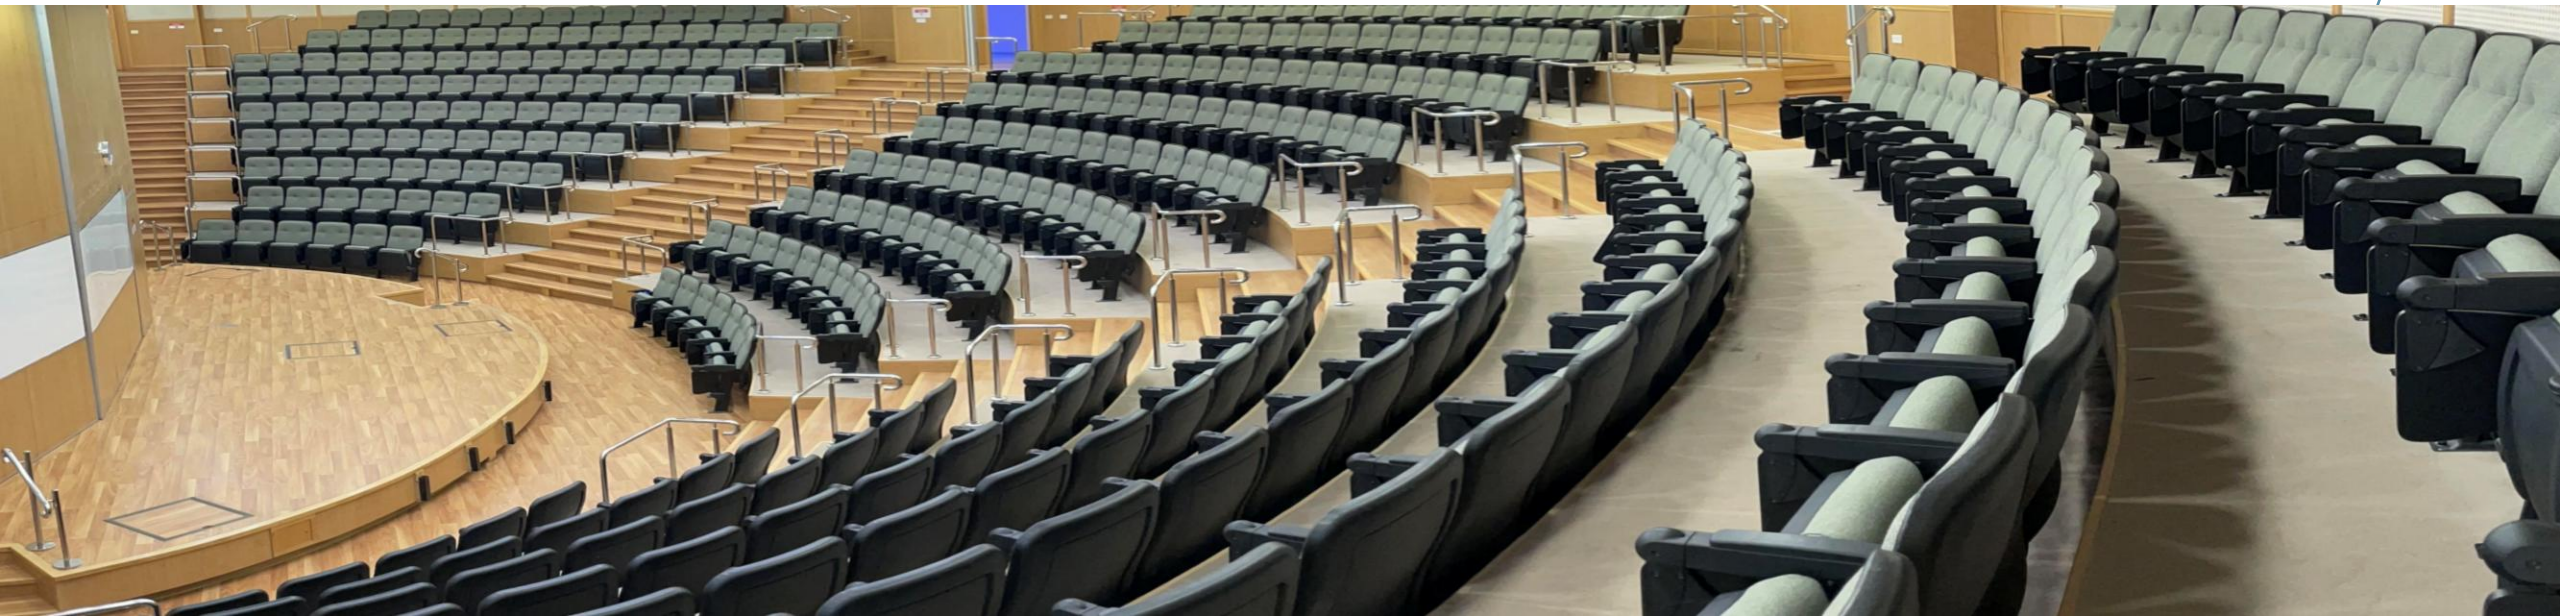

A Stage for Innovation : The Auditorium (Be'er-Sheva)

**This facility is available as a naming opportunity*

Our auditorium features three state-of-the-art lecture halls, each with theater-style seating for up to 110 guests. When combined, they create a grand auditorium accommodating 330 attendees-an ideal venue for conferences, international events, and large-scale presentations.

Outfitted with advanced audio-visual technology, digital devices, and expansive presentation screens, these halls provide dynamic spaces for lectures, conferences, and special events.

Adjacent to the auditorium, a spacious reception hall with a grand foyer offers the perfect setting for networking, pre-event activities, and post-conference gatherings, ensuring a seamless and engaging experience for all attendees.

**Laboratories are available as naming opportunities*

From Theory to Practice: Advanced Laboratories

SCE is home to more than 50 state-of-the-art laboratories, each serving as a cornerstone of our commitment to cutting-edge research and education. As a leading institution in engineering and technology, we recognize that advanced, well-equipped labs are essential for student success.

These facilities bridge the gap between theory and practice, providing students with hands-on experience in research, experimentation, and real-world problem-solving. Within these labs, students tackle complex challenges, develop innovative solutions, and apply their knowledge in ways that drive progress in engineering and design.

Advancing Innovation: Research Centers

At SCE, our research centers drive engineering excellence and regional development, fostering innovation through strategic partnerships and real-world applications. Our Applied Research Centers bridge academic discovery with industry needs, ensuring that cutting-edge technology aligns with students' future career paths.

Supported by industry collaborations, our faculty lead high-impact projects with strong commercial potential, developing solutions to real-world challenges. Through our Commercialization Company, we connect academia with industry, launching startups in fields such as pharmaceuticals and agritech - fueling both innovation and economic growth in the southern region.

This thriving technological ecosystem attracts top talent, strengthens local industries, and drives progress that extends far beyond our campus.

Faith, Community, and Tradition: SCE's Synagogue

(Be'er-Sheva)

Our synagogue is a vital space for reflection, inspiration, and community connection, seamlessly blending modern design with traditional elements. More than just a place of worship, it serves as a center for spiritual education, communal gatherings, and meaningful celebrations. This sacred space fosters a sense of belonging, deepening connections within our community and enriching campus life. By supporting spiritual well-being alongside academic and professional growth, the synagogue embodies our commitment to a holistic student experience.

**This facility is available as a naming opportunity*

A Space for Innovation and Connection: Building C (Be'er-Sheva)

This four-story architectural gem, featuring a stunning all-glass exterior, is designed to serve both academic and community needs.

The ground floor functions as a vibrant hub for faculty and students, housing a spacious cafeteria and versatile spaces ideal for small events, open days, career fairs, study areas, and community activities.

The upper floors are dedicated to advancing academic excellence, featuring state-of-the-art classrooms, cutting-edge laboratories, various meeting rooms, and the offices of several academic departments.

**This facility is available as a naming opportunity*

Advancing Excellence: SCE's Graduate School

The Graduate School at SCE is the cornerstone of advanced education and innovation, shaping the future of engineering and technology. More than a center for academic excellence, it serves as a catalyst for leadership and progress, empowering engineers, researchers, and innovators to drive meaningful change across industries and communities.

Beyond granting degrees, the Graduate School provides continuing education opportunities, equipping alumni with the skills for lifelong professional growth. By fostering strategic partnerships with local industries, organizations, and companies, it bridges the gap between academia and the workforce - helping professionals advance their careers and create real-world impact.

**The School is available as a naming opportunity*

The Heart of Campus: The Campus Green (Be'er-Sheva)

**The Campus Green is available as a naming opportunity*

Nestled at the center of SCE, the Campus Green is a vibrant, multi-purpose gathering space where students, faculty, and community members come together to relax, celebrate, and connect. Surrounded by the college's landmark buildings and outfitted with park benches and game tables, this lush, open space serves as a natural hub for student life.

Beyond everyday activities, the Campus Green is a dynamic venue for major events, including concerts, community gatherings, and graduation ceremonies. It stands as a focal point of connection and cultural engagement, enriching the campus experience for all who visit.

Giving Opportunities List

At SCE, every contribution helps shape the future. Whether you choose to support scholarships, research, cutting-edge laboratories, or new campus facilities, your generosity fuels innovation, expands opportunities, and empowers the next generation of engineers and designers.

Explore the many ways you can make a lasting impact at SCE. Be inspired by the opportunities below, or collaborate with us to create a personalized giving plan that reflects your vision.

Student Success & Scholarships

- ❑ **Named Scholarships** : Open doors for students by funding scholarships tailored to your values.
- ❑ **Student Support & Career Development** : Help students succeed academically and professionally with tutoring, counseling, and career coaching.

Transforming Our Campus

- ❑ **Classrooms & Learning Spaces** : Equip students with modern facilities for hands-on learning.
- ❑ **Labs & Research Facilities** : Provide cutting-edge technology and collaborative research environments.
- ❑ **Campus Green & Community Spaces** : Enhance the student experience with inviting, multifunctional spaces.
- ❑ **Future Campus Expansion** (*New Ashdod Campus, Hi-Tech Building, New Residence Complex...*)

Giving Opportunities List

Community & Regional Impact

- ❑ **STEM Outreach Programs** : Inspire the next generation of engineers and designers.
- ❑ **Entrepreneurship & Innovation Hubs** : Foster creativity, problem-solving, and startups.
- ❑ **Social Impact Initiatives** : Expand SCE's role in strengthening the region through education and innovation.
- ❑ **Hackathon Sponsorships** : Empower students through real-world challenges that foster creativity, teamwork, and problem-solving.

Research & Innovation

- ❑ **Research Funds** : Drive innovation and advance research in engineering, technology, and applied sciences.
- ❑ **Industry Partnership Centers** : Support research hubs that bridge academia and industry.
- ❑ **Faculty Research Grants** : Support faculty-led innovation and applied research projects.
